## Pasteur Colloquium-Senior

### Morphogenesis in the human fungal pathogen *Candida albicans*: a complex interplay between transcription factors

**[Speaker]** Christophe D'Enfert, Professor  
Institut Pasteur, Paris, France

**[Time]** 10:30:00-11:30AM, Oct.24, 2016

**[Host]** Prof. Changbin Chen

**[Venue]** B207 ,Life Science Research Building

Dr. Christophe D'Enfert is the Chair of the Committee for Scientific Strategy – BIOASTER, Lyon, France. The main objective is to contribute into understanding the biology of *C. albicans*, the pathophysiology of infections due to this opportunistic pathogen and their epidemiology, as this is likely to yield progress in the management of *C. albicans* infections.
