

Seminar

What the recent emergences of chikungunya and Zika viruses have taught us

Prof. Marc LECUIT

Institut Pasteur Paris

Head of the Biology of Infection Unit

Director of the Inserm Unit 1117

Focused on understanding the host and microbial mechanisms underlying host invasion and within-host dissemination. The pathogens studied in ML's laboratory include bacteria ,and emerging viruses.

A0227, Life Science Research Building

10:00-11:30 am

May 15 , 2018

Host: Dimitri LAVILLETTE
